

Sina Abedini

Biochemistry Master's Student at McGill University

✉ sina.abedini@mail.mcgill.ca

✉ sina.abedini501@gmail.com

🌐 LinkedIn

☎ +14389288455

📍 Montreal, Canada

Research Interests

- Cancer Immunotherapy
- Gene Therapy
- Nanomedicine
- Regenerative Medicine
- Protein Biochemistry
- Biomaterials
- Genetic Engineering
- Combination Therapy
- Drug Delivery

Research Projects

Structure of the Bacterial Magnesium Transporter CorB by Cryo-EM Single-Particle Analysis **Fusion of the Fab recognizable BRIL domain into target membrane protein for structural studies**

- **Molecular Biology Techniques:** Designed and cloned expression constructs using PCR and Gibson assembly; purified plasmid DNA and confirmed construct integrity.
- **Protein Biochemistry:** Expressed and purified recombinant membrane proteins; performed size-exclusion chromatography and SDS-PAGE to assess purity and integrity.
- **Cryo-EM Preparation:** Contributed to sample preparation for single-particle Cryo-EM analysis of membrane proteins, including nanodisc incorporation and Fab assisted fiducial mark strategies.
- **Critical Thinking and Troubleshooting:** Optimized protein expression and purification conditions, troubleshooting low-yield issues through iterative construct design.
- **Collaboration and Communication:** Worked within a multidisciplinary team; presented results in lab meetings and contributed to project planning.

Education

Master of Science (M.Sc.) in Biochemistry

School of Biomedical Sciences - Department of Biochemistry - McGill University

📅 September 2023 – Present

📍 Montreal, Canada

🎓 McGill University

- cGPA: 3.65/4

Bachelors of Science (B.S.) Degree in Biotechnology

School of Biology - University of Tehran

📅 September 2019 – August 2023

📍 Tehran, Iran

🎓 University of Tehran

🏆 Ranking

- Overall GPA: 18.69/20 (3.9/4)

High School Diploma in Natural Sciences

Mofid 2 High School

📅 September 2016 – August 2019

📍 Tehran, Iran

- Overall GPA: 19.65/20 (4/4)

Honors and Awards

- Grad Excellence Award in Biochemistry (2023)
- Awarded McGill University Full scholarship for graduate program in Biochemistry: tuition fully covered (2023)
- Ranked 2nd in the Biotechnology class of 2023, qualified for direct entry to fully funded masters program at the University of Tehran (2022)
- Awarded University of Tehran Full scholarship for undergraduate program: tuition fully covered by the government (2019)
- Ranked top 0.5 percent of 700000 attendees of the nationwide natural sciences matriculation exam (2019)
- Ranked 7th out of 139000 participants in the nationwide English language matriculation exam (2019)

Teaching Experience

Teaching Assistantship

University of Tehran

September 2022 - Dec 2022

School of Biology

- **Biochemistry:** Dr.S.Safarian
 - Teaching the class topics from general and organic chemistry complementary to the biochemistry course
 - Reinforcing class lessons
 - Familiarizing the students with the course at hand
 - Answering student's questions
- **Specilized English texts:** Dr.V.Hassanzadeh
 - Familiarizing students with the overall structure and writing style of textbooks and papers written in English
 - Practicing reading, speaking and writing in academic and scientific settings
 - Reinforcing class lessons
 - Answering student's questions
- **General Biology:** School of Mathematics and Computer Science
Dr.R.Naderloo
 - Teaching the students basic concepts of biology and genetics with emphasis on the central dogma of molecular biology
 - Relating biological concepts to data structure and paving the way into the field of Bioinformatics
 - Answering student's questions

Highschool Tutoring

Mofid 2 High school

Sep 2022

- **Biology and Chemistry:**
 - Reviewing topics from first, second and final year of high school biology
 - Guidance counselling for preparation for the matriculation exam
 - Answering student's questions

Industry Experience

Internship at Quality Control Laboratory

Zist Darman Mahan Pharmaceutical Company

August 2022

Pardis Technology Park, Tehran, Iran

biodep.ir

- Gained hands-on experience with standard operating procedures (SOPs) and Good Laboratory Practice (GLP) in a pharmaceutical QC environment
- Observed and assisted in microbial culture preparation, cell counting, and differential QC tests for probiotic products
- Learned and supported stages of pharmaceutical production, including fermentation, purification, and packaging processes
- Became familiar with quality control instruments and workflows used in probiotic drug development
- Developed a foundational understanding of regulatory compliance, documentation practices, and industry-level production cycles

Laboratory Skills

- Recombinant Protein Expression & Purification
- Gel Electrophoresis & Gel extraction
- Molecular Cloning
- Size Exclusion Chromotography
- SDS-PAGE
- PCR
- Nanodisc preparation
- Plasmid purification

Related Coursework

Graduate Coursework

Structural Pharmacology: (PHAR505)	3/4	Protein Biology and Proteomics: (BIOC605)	4/4

Homologous Recombination

[Team presentation on DNA damage repair by mechanism of Homologous Recombination](#)

📅 Nov 2021

📍 Molecular Genetics Course

🔗 [view](#)

Vascular Endothelial Growth Factor

[Presentation on the biological role of Vascular Endothelial Growth factor \(VEGF\)](#)

📅 Jan 2021

📍 Molecular Genetics Course

🔗 [view](#)

Microbiologically Influenced Corrosion

[Presentation on the economic damage of corrosion and the role of microorganisms in induction or acceleration of corrosion](#)

📅 Jul 2022

📍 Microbial Biotechnology Course

Language Skills

- English:
 - TOEFL: 113
 - (Reading: 30, Listening: 29, Speaking: 30, Writing: 24)

- GRE: 312
(Verbal: 155, 66th percentile, Quantitative: 157, 57th percentile)

Computer skills

- **Microsoft Suit:**
Powerpoint, Word, Excel
- **Programming:**
Python
- **Analysis Tools:**
SPSS, PyMOL, SnapGene, AlphaFold
